WORK EXPERIENCE

06/2025 – Present
Kochi, Kerala

Web Developer

Addax Digital

- Designed and built many custom websites using WordPress and Shopify, focusing on clean design, fast performance, and mobile responsiveness.
- Created and customized themes using HTML, CSS, JavaScript, and Liquid to align with each client's brand and business goals.
- Developed numerous eCommerce sites for small businesses and dropshipping stores, including automated product sourcing and order fulfillment.
- Integrated third-party tools, plugins, and payment gateways to enhance site functionality and improve user experience.
- Optimized websites for SEO, loading speed, and accessibility, boosting client visibility and engagement.

08/2024 – 01/2025
Calicut, Kerala

MERN Stack Developer Intern

Techolas Technologies Pvt Ltd

- Built several full-stack web applications using the MERN stack (MongoDB, Express.js, React, Node.js), designed to handle real-world business needs and high-traffic environments.
- Developed rich front-end interfaces with React and Redux, ensuring seamless user experiences and responsive design across devices.
- Created a custom UI component library from scratch, which reduced development time on new projects by 15% and improved code consistency and reusability across the team.
- Optimized back-end performance through advanced MongoDB query optimization and implemented caching strategies to support large user loads without slowdowns.
