PROFESSIONAL SUMMARY

Software Engineer with 2+ years of hands-on experience architecting secure, scalable, and user-focused web applications using the MERN Stack (MongoDB, Express.js, React.js, Node.js). Proven expertise in RESTful API development, responsive design, and cloud platforms (AWS, Azure, GCP). Specialized in Shopify theme development (Liquid, Theme OS 2.0, Metaobjects/Metafields) and WordPress development, delivering custom e-commerce storefronts and full theme rebuilds that reduced third-party app dependency for production businesses. Recognized for optimizing Core Web Vitals, improving code reusability, and delivering maintainable code in Agile team environments.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3, PHP

Frameworks & Libraries: React.js, Node.js, Express.js, Redux, Three.js, Bootstrap, Tailwind CSS

CMS & E-commerce: Shopify (Liquid, Theme OS 2.0, Metaobjects, Metafields, App Integration), WordPress (Theme/Plugin Customization, WooCommerce)

Database: MongoDB

Cloud & Tools: AWS, Azure, GCP, Git, VS Code, Postman, Shopify CLI

Core Competencies: RESTful APIs, MERN Stack Development, Responsive Web Design, Core Web Vitals Optimization, SEO, Agile Development

WORK EXPERIENCE

Software Engineer — Codenex Solutions Pvt LLP

Sep 2025 – Present

- Engineered custom Shopify and WordPress websites from scratch, implementing advanced UI components and delivering production-ready e-commerce solutions.
- Architected and customized Shopify themes using Liquid, HTML5, CSS3, and JavaScript, creating fully responsive e-commerce experiences across devices.
- Implemented WordPress theme and plugin customization using PHP, delivering scalable, maintainable solutions for business clients.
- Developed full-stack web applications using the MERN Stack (MongoDB, Express.js, React.js, Node.js), integrating third-party APIs and payment gateways to extend functionality.
- Managed source control with Git in Agile team environments and optimized website performance, improving Core Web Vitals scores.

Web Developer — Addax Digital

Jun 2025 – Sep 2025

- Designed and built multiple custom websites using WordPress and Shopify, prioritizing clean design, fast load times, and mobile responsiveness.
- Developed custom themes using HTML5, CSS3, JavaScript, and Liquid, aligning each build with client brand and business goals.
- Delivered numerous e-commerce websites for small businesses and dropshipping stores, automating product sourcing and order fulfillment workflows.
- Integrated third-party tools, plugins, and payment gateways to enhance site functionality and improve overall user experience.
- Optimized websites for SEO, page load speed, and accessibility, increasing client visibility and user engagement.

MERN Stack Developer Intern — Techolas Technologies Pvt Ltd

Aug 2024 – Jan 2025

- Built multiple full-stack web applications using the MERN Stack (MongoDB, Express.js, React.js, Node.js) designed to support real-world business needs and high-traffic environments.
- Developed rich front-end interfaces with React and Redux, delivering a seamless, responsive user experience across devices.
- Engineered a custom reusable UI component library from scratch, reducing development time on new projects by 15% and improving code consistency across the team.
- Optimized back-end performance through advanced MongoDB query optimization and caching strategies, ensuring stability under large user loads.

FEATURED PROJECTS

SHOPIFY PROJECTS

Thottathil Silks & Cottons thottathilsilks.com

Technologies: Shopify Liquid, Tailwind CSS, JavaScript (ES6+), Shopify OS 2.0, Shopify CLI

- Architected a fully custom Shopify theme from scratch using reusable Liquid sections, blocks, and snippets.
- Built responsive, mobile-first layouts across product, collection, and cart experiences with a merchant-editable theme structure.

Zuboc zuboc.com

Technologies: Shopify Liquid, Shopify OS 2.0, Tailwind CSS, Metaobjects, Metafields

- Rebuilt the Shopify storefront from scratch while preserving the existing design, using reusable OS 2.0 sections and templates.
- Eliminated 4+ third-party apps by implementing native Liquid functionality, using Metaobjects and Metafields for merchant-manageable content.

Zircon Concepts zircontrading.ae

Technologies: Shopify Liquid, Shopify OS 2.0, JavaScript, HTML5, CSS3

- Extended a production Shopify theme for a UAE-based storefront, customizing homepage, product, and navigation sections.
- Improved responsive design and merchant control through configurable Theme Editor settings; resolved production bugs.

Tornado Store

Dec 2025 – Jan 2026

Technologies: Shopify Liquid, JavaScript, Tailwind CSS, Lenis.js

- Developed a full Shopify e-commerce site from scratch, including custom theme structure, product, and cart flows.
- Implemented smooth-scroll interactions with Lenis.js and integrated third-party payment gateways.

OTHER PROJECTS

Spick & Span

Jan 2026 – Feb 2026

Technologies: WordPress, PHP, Tailwind CSS, JavaScript, NPM

- Developed a custom WordPress theme from scratch with reusable, CMS-driven UI components and admin-editable sections.
- Implemented an NPM-based build workflow to compile assets into a production-ready theme package.

Weather App

Apr 2025 – May 2025

Technologies: React, Node.js, Express, MongoDB, OpenWeatherMap API

- Built a full-stack weather app with React/Tailwind CSS frontend and Node.js/Express backend.
- Integrated the OpenWeatherMap API for real-time data and used MongoDB to store historical weather records.

EDUCATION

Bachelor of Science in Computer Science — University of Calicut Malappuram, Kerala	<i>Apr 2021 – Jul 2024</i>
MERN Stack Development — Techolas Technologies Pvt Ltd Calicut, Kerala	<i>Aug 2024 – Present</i>

LANGUAGES

English: Highly Proficient
Malayalam: Native Speaker
